TECHNICAL SKILLS

PROGRAMMING LANGUAGES

TypeScript · Python · Java · Rust · Bash · SQL

FRONTEND

Angular · React · Astro · HTML5 · CSS · Tailwind · Bootstrap

BACKEND

Spring Boot · Django · FastAPI · Flask

DATABASES & CLOUD DB

PostgreSQL · MySQL · SQLite · Neon

DEVOPS & CLOUD

Docker · Podman · Vercel · Render

VERSION CONTROL & TOOLS

Git · GitHub · GitLab · Jujutsu

NETWORKING & SYSTEMS

Networking (CCST) · GNU/Linux · Windows · WebSocket · MQTT

CYBERSECURITY

Ethical Hacking · Pentesting · Vulnerability Analysis · OAuth/JWT

METHODOLOGIES & AI

UML · Opencode - Pi · ODD → LLM · Google Colab · Scrum

LANGUAGES

Spanish: Native

English: C1 Level

German: Intermediate

PROFESSIONAL PROFILE

Orchestration of AI agents via execution harnesses for the use, design, development, and analysis of software and cybersecurity tools. Specification-Driven Development integrated with Large Language Models (LLMs) to achieve *security by design*. Cybersecurity Consultant. Strong foundation in mathematics, physics, probability, statistics, and hardware acquired through three years of Electronic Engineering studies (UTN). Decades of experience in GNU/Linux. Self-taught, analytical, and results-oriented profile with a proven capacity to build comprehensive software solutions.

WORK EXPERIENCE

Independent — 2017 – Present

IT Freelancer

- Software development.
